BESPOKE APPAREL

FENIX CUSTOM brings you an entirely unique opportunity to express your individuality on the design process of all of our products.

We offer a diverse range of products and accessories to compliment each individual event ensuring the complete package is tailored to your exact specifications in just one easy step.

The suggested design on this catalog are examples of what you can create. However, with 10 color options available, the decision is yours! Even with a 2 color shirt, there are 90 available choices.

Technology

Wicking: moisture management

moves moisture away from the skin to the outer surface of the fabric, where it evaporates

Heat Transfer: breathability

breathable construction to allow core temperature adjustment

Stretch: mobility

fabric construction and composition offers optimal comfort and unrestricted movement

Bespoke

DESIGN

FENIX CUSTOM offers our customers a unique opportunity to produce bespoke polo shirts, t-shirts, caps, bags, towels and other accessories, made to order in your corporate, club, sporting or business colors.

Our **BESPOKE** program offers you the complete freedom to design your very own look using our manufacturing techniques such as cut and sew, yard dye or sublimation printing. We also have a number of options for adding logos, including screen printing, embroidering, sublimating or even rubber stamping, in order to complete your desired look. Your individual program allows you to select your fabric colors and match your company or logo requirements to your selected products.

TOP GOLF THAILAND UNIFORM 2023

FENIX CUSTOM offers our customers a unique opportunity to produce bespoke polo shirts, t-shirts, caps, bags, towels and other accessories, made to order in your corporate, club, sporting or business colors.

Our **BESPOKE** program offers you the complete freedom to design your very own look using our manufacturing techniques such as cut and sew, yard dye or sublimation printing. We also have a number of options for adding logos, including screen printing, embroidering, sublimating or even rubber stamping, in order to complete your desired look. Your individual program allows you to select your fabric colors and match your company or logo requirements to your selected products.

How does it work?

Provide us with a brief outline of your bespoke requirement for your event, conference, uniform, sporting activity or business needs. We will then design your concept based on your brief, or alternatively we can provide you with storyboard design options created by our in-house design department.

What we'll need:

Send us a brief description of your requirements.
Provide us with your exact pantone colors, if required.
Provide us with your logo in hi-res format.

Is there a minimum quantity required?

Our minimum number of units required for this bespoke program starts from 50 units per design, based on available stock fabric colors.

Lead Time

You should allow approximately 60 days from final approval of your bespoke design to be ready to dispatch from our warehouse.
Delivery times may vary depending on the manufacturing process required for the production of your order.

Payment Terms

There is a 50% deposit required with your confirmation of order and the remaining 50% payment received in full before the goods will be released from our warehouse.

Sublimation Print

DESIGN

If you're looking for something a bit more detailed or sophisticated, then a **SUBLIMATION PRINT** is the best option for you.

With the sublimation printing technique, you can choose any design in any color, and we will print it to the shirt in any of the following specs:

1. Front Panel Sublimation (plain back panel and sleeves)
2. Front Panel, Collar and Sleeve Sublimation (plain back panel only)
3. Full Sublimation (the whole shirt will be printed with your design)

Choose from one of our popular template designs, or submit your own design request. Or if you're unsure about your design, leave it to our dedicated design team to help you create your very own design to perfectly showcase your brand or corporate identity.

With this sublimation print option, you can incorporate your logo into the design itself at no additional cost, or stick with traditional embroidery or other options such as rubber stamps or heat transfers. The choice is yours.

Cut and Sew

DESIGN

CUT & SEW is a manufacturing technique more suited to customers who prefer a premium looking product with more than 1 color in the design.

With Cut & Sew, we will cut 2 or more fabrics and stitch them together according to your choice of pattern. This method is ideal for those who prefer the look and feel of fabric on their shirts rather than a sublimation print.

Our Cut & Sew program offers over a dozen template designs, and 10 different colors, adding up to over 1000 possible combinations of color and pattern. The fabric used in this process is a flatback pique polyester, which offers excellent comfort and performance.

Your logo(s) can be added using a range of techniques, from simple embroidery to more premium looks such as rubber stamps and heat transfers. See page 34 for more information.

CUT & SEW

Solid Performance

POLO

Introducing the entry-level option in our custom program, our solid polo shirt is an excellent option for corporate uniforms where you want to maximize the impact of your logo and keep the shirt design minimalistic. In this style, we offer a number of fabrics in over 100 colors, allowing you to find the right color and style for your brand.

When BlueScope contacted us requesting a functional, breathable polo for their engineers to wear, we recommended this solid polo in Dry-Tech fabric, for performance as well as durability under tough conditions. They selected this specific blue color to match their corporate branding, and finished the shirt with some added touches - white stripes in the collar and sleeve trim, with company logos positioned as requested.

Other fabrics are available depending on your specific requirement and brief, from cotton to a range of pique polyesters, up to our higher end retail fabrics, such as our soft and stretchy poly spandex.

Your logo can be added using a range of techniques, from simple embroidery to more premium looks such as rubber stamps and heat transfers.

Solid Performance Polo

Private Label

Fenix Custom are pleased to offer our customers a **Private Label** option which allows you to create your very own brand. This unique services gives you the chance to utilise the premium quality of Fenix Custom products, but with the added option of customizing your own hang tags and labels.

Ideal for corporate or sports uniforms where you would like to maximise your branding, these products will be made free of any Fenix Custom branding, meaning your logo stands out that much more.

This is a popular choice amongst golf clubs who wish to present their own house-brand, for their customers and guests to take home as souvenirs. Again, your label and hang tags will be custom designed by our in-house team of professional designers, and completely free of Fenix Custom branding.

A TOURNAMENT PACKAGE

From caps and towels to golf balls and key chains, our wide range of accessories make for the perfect accompaniment to your customized apparel. Perfect for giveaways to clients and friends, put the finish touch on these accessories by adding your corporate or personal logo.

Our traveler bags are one of the most popular products in the range; available in 3 colors, these lightweight bags contain 2 compartments to separate your clothes and shoes, making them ideal for trips to the golf course or the gym. We also have a huge range of caps; from our own brand caps, to Ahead caps, to your own custom designed caps. Choose from our stock caps and add your logo for fast turnaround, or design your own colors and even fabric on the cap for a fully customized product.

Novelty accessories such as keyrings or golf balls are also available, as well as the full range of PRG accessories which include string bags and teddy bears.

WORKWEAR

FENIX
CUSTOM

FENIX
CUSTOM

Our company is a professional manufacturer and exporter of high-quality recycled knitted workwear. Our Asian headquarter is located in Bangkok, Thailand. We operate 3 factories and employ staff across Asia. All our recycled workwear is manufactured in our associate factories in Bangladesh. Our knit workwear are made of recycled polyester yarn from PET bottles mixed with recycled cotton yarn. Our woven workwear is made of recycled polyester yarn from PET bottles mixed with virgin cotton yarn. The complete supply chain from PET and cotton waste to fibre, yarn, fabric, garment manufacturing, printing and embroidery has been GRS certified (Global Recycled Standard).

FENIX
CUSTOM

The Woven Fabrics
Our standard woven fabric is made of yarn from recycled PET bottles mixed with virgin cotton yarn. Recycled polyester content is >50% to be classified as recycled under GRS. Currently we mostly use woven fabrics for making T/C 250gsm Hi-Vis workwear.
