FALL 2023 COLLECTION

STORMTECH®

nurtured by nature

FALL 2023 COLLECTION

Inspired by the rugged landscapes of the Pacific Northwest and refined in Vancouver's cool, urban cityscape, STORMTECH Performance Apparel has outfitted explorers and seekers for extreme, unpredictable weather and conditions since 1977. Fueled by our passion for the outdoors, we build durable, functional, contemporary clothing and deliver quality and innovation year after year.

At STORMTECH, we believe in environmental stewardship, with technologies that lessen our impact on our natural environment. STORMTECH creates timeless, high-quality products designed to extend product life and minimize environmental impact. We back up our commitment to quality workmanship with a 5 year warranty, and have built out a sustainable product care program to extend product life and performance.

Sustainable practices are ever evolving, and we are committed to minimizing our environmental impact and enhancing sustainable practices through responsible design, sourcing, and daily business operations. We also support youth through our 1:1 initiative, and support worker health and safety at all of our factories and office locations.

STORMTECH Performance Apparel incorporates proprietary fabric technologies, including H2XTREME® and H2X-DRY® with smart sourcing and manufacturing processes including PFC-Free water repellent, leak-proof, heat-welded seams and precision, laser-cut and bonded plackets.

STORMTECH is a one-stop, full-service partner uniquely structured for the corporate marketplace, offering a comprehensive array of in-house decoration services, a robust e-commerce website and a highly-skilled customer service team to support and fulfill your orders.

STORMTECH TECHNOLOGIES

With a heritage of 45 years outfitting adventurers for extreme weather and conditions, innovation is at the core of STORMTECH's culture and values. Our durable, functional, contemporary clothing is built using advanced fabric technologies, and smart sourcing and manufacturing. To help our customer easily identify the benefits of our high-performance gear, we've developed a collection of 9 technology icons to help guide you.

WATERPROOF

BREATHABLE

CLIMATE RANGE

WINDPROOF

SEALED SEAMS

CRITICALLY
SEALED SEAMS

ULTRASONIC
WELDED SEAMS

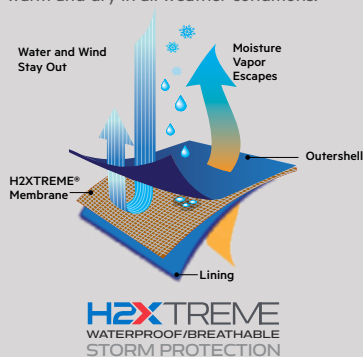

DEVICE
COMPATIBILITY

RFID BLOCK

CLIMATE CONTROL

Ultimate weather protection through advanced waterproof/breathable technology, engineered to keep moisture at bay, inside and out. H2XTREME® membranes stop water and wind from penetrating the garment while allowing water vapor to escape, keeping you warm and dry in all weather conditions.

ULTRASONIC WELDED SEAMS

Seams are ultrasonically fused together to form a continuous, impermeable barrier – more durable than traditional seams because there are no needle holes that would allow water to penetrate the outshell. Ultrasonic welding creates durable permanent sealed seams in technical fabrics and protection without adding bulk or weight to the garment.

WATERPROOF ZIPPERS

STORMTECH Waterproof zippers are built to keep you dry in extreme wet weather conditions. A waterproof polyurethane adhesive film is bonded to the zipper tape to create a waterproof seal on both vislon and nylon coil zippers.

ALL WEATHER THERMAL PROTECTION

High loft, high efficiency Thermolex™ synthetic down – developed and tested by STORMTECH is inserted into each quilted panel to a specific fill weight in order to achieve maximum warmth and softness. Engineered to be lightweight and highly efficient in all weather conditions.

THERMAL SHELL TECHNOLOGY

High efficiency/high loft synthetic alternative to down, designed to maintain its thermal properties while being lightweight providing superior resistance in colder conditions. Quilting is achieved by sewing through all 3 layers of the garment.

HD HEAVY DUTY OUTSHELL

Heavy-duty, heavy weight nylon and polyester fabrics are constructed to withstand the most rigorous and extreme industrial applications and weather conditions. HD fabrics are also coated to achieve a high level of water resistance.

WATERPROOF

Keeps outside moisture from penetrating the fabric. The waterproof rating is typically expressed in milliliters (1,000mm to 10,000mm) based on water pressure tolerance over a 24-hour period. Generally, the higher the rating, the higher the waterproof protection.

BASIC | LEVEL 1

600mm to 2,000mm

HIGH | LEVEL 2

2,000mm to 8,000mm

EXTREME | LEVEL 3

8,000mm to 20,000mm+

BREATHABLE

The movement of air from one side of the fabric to the other to keep the wearer comfortable. The breathability rating is typically expressed in a gram measurement of how much vapor a square meter (G/M2) of fabric will allow to pass in a 24-hour period (typically, 1,000G/M2 to 10,000G/M2) the higher the number, the more breathable the garment.

BASIC | LEVEL 1

1,000g/m² to 5,000g/m²

HIGH | LEVEL 2

5,000g/m² to 10,000g/m²

EXTREME | LEVEL 3

15,000g/m² +

CLIMATE RANGE

A system developed by STORMTECH by taking several factors into consideration such as activity level, wind chill, sun exposure etc. A useful guide for selecting the appropriate garment for your adventure.

MILD

+20°C (68°F) to +5°C (41°F)

COLD

+5°C (41°F) to -10°C (14°F)

EXTREME COLD

-10°C (14°F) to -30°C (-22°F)

PFC-FREE DWR WATER RESISTANCE

PFC-Free Durable Water Repellent technology is a polymer coating added to outerwear to provide water resistant protection. DWR treated fabrics prevent light rain and snow precipitation from saturating the outer fabric surface and prevents fabric from becoming weighed down by excess moisture, for optimized comfort and freedom of movement.

PFC-FREE DWR

ACTIVE MOISTURE MANAGEMENT

Next-to-skin climate control with moisture management technology to regulate your core. Body moisture is transported from the skin to the fabric's outer surface through the capillary action of specialized moisture wicking yarns.

Moisture Management Technology

H2X-DRY
MOISTURE MANAGEMENT

ODOR CONTROL

Polygiene StayFresh-treated garments allow you to enjoy the confidence of fresh, all-day wear while minimizing the need for frequent washing. By extending the time between washes, these garments save you valuable time, reduce water consumption, and minimize waste.

Without Polygiene® Biostatic Odor-causing bacteria/microbes settle and multiply in material

With Polygiene® Biostatic Biostatic stays fresh technology inhibits growth of odor-causing bacteria

Sweat and Moisture

POLYGIENE®
FRESHNESS

ANTI-SNAG CONSTRUCTION

Anti-snap construction is achieved by using specialized yarns that are less likely to break or unravel when pulled or snagged by incorporating specific knitting techniques that reinforce the fabric and reduce the risk of snagging. The result is a more durable and resilient fabric that is less likely to snag or run; improving the quality and longevity of the finished product.

H2X-DRY® Fabric

Anti-Snap Yarn Construction

anti-snap
CONSTRUCTION

SUN PROTECTION

UVX rating is a measurement of the ultraviolet protection provided by a fabric used in garments, indicating how effectively the fabric blocks UVA and UVB radiation from the sun, which can cause skin damage. Fabrics are treated or constructed using densely woven or knitted fabrics and UV absorbent fibers to reflect UVA and UVB light.

UVX
SUN PROTECTION

4-WAY STRETCH

Four-way mechanical stretch fabrics stretch and recover in all four directions. Made from a combination of natural and synthetic fibers, and elastane, highly elastic synthetic fiber, used to provide additional stretch and recovery properties to create a highly flexible, comfortable, and durable fabric that is ideal for use in athletic, outdoor, medical and industrial applications.

H2X-DRY® Stretch Fabric

4-way Stretch Recovery

4-way stretch

SUSTAINABLE DESIGN &

Sustainable practices are ever evolving. We are committed to minimizing our environmental impact and enhancing sustainable practices through responsible design, sourcing, and daily business operations.

PRODUCTS BUILT TO LAST

STORMTECH creates timeless, high-quality products designed to extend product life and minimize environmental impact. We back up our commitment to quality workmanship with a 5 year warranty, and have built out a sustainable product care program to extend product life and performance.

PRODUCT TESTING

At STORMTECH, we take pride in ensuring our products are tested and inspected at the highest level of performance.

Our products are tested through third party accredited testing laboratories according to the American Association of Textile Chemists and Colourists (AATCC), American Society for Testing and Materials (ASTM), and the American Apparel & Footwear Association (AAFA), among others.

PFC FREE AND PFAS COMPLIANT

As an outdoor clothing brand that believes we're at our best in nature, STORMTECH has partnered with fabric mills and garment factories to find alternative, breathable water repellent treatments that are PFC-Free without sacrificing the performance of our materials.

With the introduction of our Fall 2023 collection, all materials used in production are now also PFAS compliant.

PRODUCT SAFETY

At STORMTECH we maintain a stringent Restricted Substances List (RSL) based on global standards and laws, and a corresponding testing protocol that ensures our products meet these standards. The RSL protocol is following various substance restricting laws and regulations such as Canadian Consumer Product Safety Act (CCPSA), Consumer Product Safety Improvement Act (CPSIA), Federal Hazardous Substances Act (FHSA), California's Proposition 65, AAFA Restricted Substance List (RSL).

INCREASED USE OF RECYCLED CONTENT

Sourcing recycled materials for products is a top priority in our daily business operations and product development.

This dedication to sustainable practices is reflected in every new product we develop. Our focus on recycled content ensures that our garments not only meet high-quality standards but also contribute to a more environmentally conscious industry.

ENVIRONMENTAL STEWARDSHIP

STORMTECH is committed to reducing the environmental impact of our operations. We encourage our business partners to comply with all applicable environmental laws and regulations in the country of operation and encourage our whole supply chain to reduce the use of natural resources, to re-use where feasible, and to recycle whenever is possible.

SOCIAL RESPONSIBILITY

STORMTECH's Corporate Social Responsibility focuses on responsible sourcing practices, product safety, environmental stewardship, and giving back to local community organizations.

RESPONSIBLE SOURCING

STORMTECH is firmly committed to selling products that are manufactured under legal, safe and fair working conditions in factories where employees are treated fairly.

Our Ethical Sourcing Policy is designed to ensure that our global sourcing supply chain operates in compliance with all applicable laws governing child labor, forced labor, wages, benefits, working hours, harassment, health and safety & factory security.

PROTECTING OUR OCEANS

STORMTECH is committed to the reduction of fiber fragmentation from textiles into the natural environment by 2030, and the reduction of microfibers and microplastics contributing to water pollution. Implementing stronger, low-shedding polyester fleece standards can significantly reduce the amount of microfibers and microplastic contributing to ocean pollution.

PROTECTING OUR FORESTS

STORMTECH is committed to the Forest Stewardship Council (FSC) of sustainable sourcing of wood-based fibers, cellulosic fabrics, and paper products in a way that addresses the major environmental impacts associated with deforestation and forests degradation. All hang tags, cartons, and packaging are sourced from Forest Stewardship Council (FSC) certified forest, recycled content, or other controlled wood sources.

BIODEGRADABLE PACKAGING

Since Spring 2022 all products are packaged with sustainable materials including Oxo-biodegradable bags and FSC® certified cartons. All hang tags and packaging materials are also produced using recycled biodegradable inputs.

PRIORITIZING ANIMAL WELFARE

All STORMTECH products are feather-free and fur-free. Our Animal Derived Materials policy further outlines the restrictions on use of materials sourced from endangered animal habitats. Our guiding principles are the five freedoms of animal welfare as underlined by the World Organization for Animal Health <https://www.oie.int/animal-welfare/>

CHARITABLE GIVING

We commit 1% of our total global sales to charitable initiatives focused on outdoor exploration and environmental stewardship through our 1:1 initiative. That means every STORMTECH purchase further empowers our partner organizations to make the world a better place.

Through the Pure Earth Initiative, we share our passion for outdoor experiences by donating our products to youth organizations in order to cultivate a love, respect, and passion for the outdoors.

Technical Outerwear

Born in the rugged west coast rainforests of British Columbia, Canada, STORMTECH's designs are inspired through the lessons learned from the rain, snow, and sun. We pay painstaking attention to mother nature's varying moods in order to develop the very best in technical outerwear. With design excellence and functionality that blends exclusive technologies, such as H2XTREME®, we build hard-wearing garments that provide maximum protection and comfort so you can get out there and explore with confidence.

Three-in-One System Jackets

The original, since 1983. When heading outdoors you can predict and plan a full day of outdoor activity with certainty, but what you can't predict is what the weather will hold. Enter our 3-in-1 system jackets; your versatile answer to the unpredictable.

These system jackets are 3 jackets in 1, pairing a weatherproof outer shell with a removable, ultra-warm insulated inner jacket. This allows you to customize your jacket when the weather is playing the fickle fiddle. STORMTECH 3-in-1 system jackets have been developed for a wide range of outdoor environments, for both work and play.

Adaptable. Interchangeable. Essential.

MATRIX SYSTEM JACKET XB-4

1. OUTER SHELL

2. THERMAL LINER

3. SHELL + LINER

FAIRBANKS 5-IN-1 SYSTEM JACKET

PXR-2 | PXR-2W

Intemperate weather just met its match. The Fairbanks 5-in-1 System Jacket can be worn in 5 different configurations that adjust to changing weather conditions. This winter parka converts to a rainshell by removing the thermal liner, which can also be worn as a thermal shell or vest. The snap-off adjustable hood allows added inclement weather protection. It's a lightweight design with heavyweight resistance in moderate to extreme conditions. Smart design dual hand pockets offer plentiful space for your valuables.

FAIRBANKS 5-IN-1 SYSTEM JACKET

PXR-2 | PXR-2W

STORMTECH H2XTREME®

Waterproof / Breathable Outer Shell

Offers a high level of waterproofing while allowing moisture vapor to exit the garment

Technical Softshells

Our Technical Softshells Outerwear Collection is built with unparalleled attention to detail that ensures your absolute warmth and comfort in thick fog or light rain. The tightly woven face fabrics provide a solid barrier that braces against the elements, while the brushed interior provides ultra soft comfort for your skin. This brushed interior also promotes a micro climate for superior moisture management and climate control. You may never want to come out of your shell.

Rainshells

WATERFALL INSULATED RAIN JACKET

WRB-3 | WRB-3W

Rain sense. Let the rain fall as you move through the city, warmly protected in this matte finish Waterfall Insulated Rain Jacket. With its light thermal shell insulation, ultrasonically welded seams, extra high insulated collar, and adjustable snap cuffs, this rain jacket demands that the wet stays out. The ingenious design moderates your core temperature thanks to a ventilated back yoke and underarm venting. Chase the impending wet weather away while you stay warm and dry.

WATERFALL INSULATED RAIN JACKET

WATERFALL RAIN JACKET

WRB-2 | WRB-2W

This great fitting, mid-length and fully lined waterproof raincoat with a matte finish is a goto piece for any urban environment. Features include ultrasonically welded waterproof seams for permanent wet weather protection. Additional features include flapped snap closure hand pockets, adjustable snap cuffs and snap back yoke and a stylish self-fabric waist belt keeping you protected from the elements.

Ultrasonically Welded Seam Technology

Provides long lasting seam waterproofing and durability

Laser Cut Back Vent

To allow airflow and excess heat to exit for core temperature regulation

D/W/R Outer Shell

Provides an all-you-need basic level of water resistance for cool to cold wet weather conditions

Attached Hood with Adjustable Drawcord

Adjust the fit of the hood for maximum warmth in cool weather

Extra High Insulated Collar

Provides extra warmth and wind protection

Extra Long Silhouette and Waist Belt (W's)

Offers added protection from the elements in variable condition

Adjustable Snap Cuffs

Provide a more secure fit at the wrist and gives you maximum cold and wet weather protection

WATERPROOF

Fleece & Layering

It's fair to say that spirited feelings are an unavoidable side effect of being surrounded by clear lakes and majestic snowcapped peaks. STORMTECH has drawn inspiration from those feelings and created tactile equivalents by using only the finest soft, synthetic materials and cotton in the manufacturing of all our fleece and layering styles. This has earned us 'best in fleece' status. Our collection consists of an array of base and mid layers that are lightweight, functional and perfect for a warm layer or light sweater. So layer up and feel the joy.

AVALANTE FULL ZIP FLEECE JACKET

FHZ-1 | FHZ-1W

The Avalante Full Zip Fleece Jacket offers long lasting cold weather comfort. Raglan sleeve design provides unrestricted movement and a great fit. Valuables are safely secured in zippered pockets, while also keeping hands warm and dry. Full front zipper with low-profile chin saver provides added protection from the elements as you venture forth with a clear conscience, knowing this fleece jacket has been created from sustainably sourced Recycled Polyester fleece.

MOLOKAI S/S SHIRT

SBR-1 | SBR-1W

Anything but conventional. The Molokai short sleeve shirt delivers a refreshing take on the traditional warm weather shirt with a clean finish that casually creates an eye-catching, cultured look.

Finished with a single chest pocket, button closures and a contoured hem to finish off this urban essential. Made from Recycled Polyester and BCI sourced Cotton for a reduced environmental footprint.

SKEENA S/S SHIRT

SBR-2 | SBR-2W

A heathered slub fabric with sleek design delivers a refreshing take on the traditional short sleeve shirt. This urban outdoor staple has a clean design that casually creates an eye-catching, cultured look with coconut button closures and a contoured hem to finish off this urban essential. The collar stand maintains collar shape and structure, wash after wash. Made from Recycled Polyester and BCI sourced Cotton for a reduced environmental footprint.

STORMTECH Bags & Packs

Bags spell adventure. If you are packing a bag, it means you are headed somewhere. Perhaps it's a commute to your first day on the job, or maybe you are headed to the airport to answer the call of adventure. Whatever exciting road lies ahead, you have this one in the bag thanks to STORMTECH. We are committed to designing durable, versatile, progressive-looking travel bags that are fiercely protective of your belongings.

STORMTECH BAGS & PACKS

WATERPROOF PACKS

A bag is both an accessory and necessary practicality. STORMTECH has addressed this dual function by creating an urban-ready range that looks slick and stylish while still offering smart, ergonomic functionality. Move fluidly through the city knowing that whether for work or play, all you need is on your back. STORMTECH waterproof packs are designed to keep contents dry and safe, while addressing the need for smart, ergonomic functionality.

NORSEMAN ROLL TOP PACK

RTB-1

You can take on anything with the weather resistant Norseman Roll Top Pack. It's robust, yet lightweight. Organized, yet versatile. From the office to the trailhead, the zippered main compartment facilitates easy organization and access, while the roll top closure forms a tight protective seal. Ensnconced in the laptop sleeve, your computer is protected from hard impacts. You'll be in your element, while this pack protects your belongings from them.

Additional Features

- Ergonomic Adjustable Shoulder and Sternum Strap
- Suspended Laptop Sleeve
- Large Main Compartment
- Padded and Thermal Moulded Back Panel
- Wheeled Luggage Compatibility
- Large Zippered Device and Stationary Compartment

STORMTECH BAGS & PACKS

COMPUTER PACKS

A pack is more than just a pack; it's both an accessory and necessary practicality. STORMTECH has addressed this dual function by creating an urban-ready range that looks slick and stylish while still offering smart, ergonomic functionality. Move fluidly through the city knowing that whether for work or play, all you need is right behind you.

MEDUSA BACKPACK

LBR-1

The digital age demands dynamic solutions, and the Medusa Backpack is precisely that. Clean lines combine with versatility. This design allows you to effortlessly transform from an over-the-shoulder-attaché to a backpack as you move through city centers and deal-cutting business lounges. All the while, your laptop is held securely in a suspended sleeve. The Medusa Backpack also features an easy-access flapped-lid opening with magnetic closures.

Additional Features

- Polyester Taffeta Lining with Polygiene® Freshness Technology
- Document Stash Pocket
- Front Organization Pocket with Key Clip

CHAPPAQUA BACKPACK

TMP-1

On-point practicality. The Chappaqua Backpack is a classically styled, durable backpack that embraces spontaneity.

When life calls, merely throw your essentials into the spacious main compartment, pop your laptop in the suspended sleeve and stow your accessories in the front pocket. Now all that remains is to adjust the ergonomic shoulder straps and feel the comfort of the airflow padded back panel. You're all set for adventure.

MADISON COMMUTER PACK

BPX-5

The city commute demands a pack rich in practicality, durability, and excellent organizational skills. The Madison Commuter Pack delivers precisely that, as you journey between home and office. Your smaller valuables will find a safe haven within the thermal moulded compartment, while your computer is protected from hard knocks, courtesy of the built-in suspended laptop sleeve. With generous storage space for all your mobile office essentials, the Madison is the intelligent commuting solution.
