LOGOS FOR PERSONALISATION

EMBROIDERY

We have to digitise your logo to enable embroidery of any product and it is not necessary to supply a vectored or high resolution image of your logo for us to achieve this. The digitising process converts your logo into a DST file which the embroidery machines will read to create your embroidery. There is no charge for creating the initial embroidery files – this includes one DST file and an embroidered swatch.

IMPORTANT

Please ensure the correct logo together with any other relevant information such as additional text are provided to us from the outset as any amendments resulting in the creation of an additional DST file will result in a charge of £25.00 When placing repeat orders, care should be taken to ensure the correct logo has been specified. In some cases, small text amendments can be made to existing DST files. In this case, a reduced free of £7.50 will be applied.

LOGOS FOR PERSONALISATION

PRINTING

All printed items, with the exception of ball markers, require a 'vectored' logo unless text only is required. These are usually .pdf, .eps or .svg files - **.jpeg, .png and .gif files are not generally acceptable for use.**

If you are unsure whether your logo is vectored or not, please contact the Level 4 team who will be happy to advise you.

If your logo is not vectored and you are unable to locate one, we can provide redrawing service which is charged at £45.00 per hour. We will provide an estimate of the total charge dependent on the complexity of your logo.
